RUSHING THE WORK.

New Montville Paper Mill is Being Completed as Fast as Possible.

On Thursday several additional carloads of heavy rollers arrived for the new mill at Montville, about twenty-four rollers coming in this shipment. The installation of the sprinkling system is well along and a pipe was laid Wednesday from the mill under the Central Vermont tracks to consect the Central Vermont tracks to connect with the big tank for fire protection. Filling the reservoir has done away with the pumping station, water com-ing directly through the old small pipe

Superintendent Whittaker stated Wednesday night that mill hours would Wednesday night that mill hours would be observed in future, the hours being nine and one-half per day for all except carpenters, masons, painters and their helpers. The hours are from 7.30 a. m. to 12 m., and from 12.30 p. m. to 5.30 p. m.

Steamer Chelsea again made two special trips to the mill this week, leaving two cargoes of paper stock.

Acquired Thayer Habit.

The Tattler of the New London Day salys:
"Norwich seems to have acquired the Thayer habit. But then, Mayor Thayer is responsible for Norwich being on the map. If he had not made that now famous remark that the best of the city was located in the Yantio that now famous remark that the best of the city was located in the Yantic cemetery. Norwich would yet be enjoying its perennial sleep. That epigrammatic utterance made Charles F. Thayer mayor of the Rose. It looks very much as if after trying a change for one term, the people of that city had decided that he is needed as chief executive to keep the place alive."

Franklin Chapter Gives Pipe Organ

Votes to Give One, Similar but Larger than One in Asylum of Commandery for Elus Lodge Room of Masonic Temple at Cost of \$2,500.

Franklin chapter, No. 4, Royal Arch Masons, held a conclave at Masonic temple on Thursday evening, at which it was decided to give a pipe organ to the Masonic temple corporation for the blue lodge room to cost \$2,500.

This matter has been under discussion for some time, having some up first in the conclave of chapter, after which other bodies using the blue lodge room appointed committees relative to the matter. The chapter has decided to give the organ itself, and it will be installed so as to be ready for use the first of October. Since the placing of the fine new organ in the asylum of the commandery, it has been considered that the same feature in the lodge room would be a valuable thing to have and so much did it appeal to the bodies using the blue lodge room that it rapidly came to a head. The organ will be similar to the one in the asylum of the commandery, although larger, as it will have two more stors. The finish will be in

the door now opening into it from the lodge room.

The action of the chapter will be learned with great pleasure by the other bodies on that floor. The chapter of which F. Leon Hutchins as high priest is at the head has completed its work for the summer, but the prospects for work in the fall were never better. There are many classes ready now, in fact the most the chapter has ever had ready at one time, so that when the work opens in the fall there will be busy times. High Priest Hutchins is proving a most capable head of the chapter and the year's end will show it to have been one of the best in the chapter's history. Certainly the gift will mark it as a year of history making.

It is expected that the plane will be placed in the banguet hall, where the

more stops. The finish will be in oak.

The organ will be placed in the northwest corner of the lodge room where the plano is now located and will extend eleven feet to the north and make it necessary to close up one making.

It is expected that the plano will be placed in the banquet hall, where the use of one is often needed. Following the installation of the organ it is probable that there will be a special service to mark the occasion, such as an organ recital.
